---

## Professional Summary

Self-motivated and detail-oriented Web Developer with over 2 year of experience designing and building responsive, accessible, and visually appealing web applications. Proficient in HTML5, CSS3, Bootstrap, JavaScript (ES6), and jQuery, with a foundational understanding of Node.js. Adept at debugging, performance optimization, and collaborating with teams to deliver high-quality front-end experiences. Expanding knowledge in React.js, demonstrated through a diverse portfolio of projects including e-commerce platforms, portfolio sites, and enterprise solutions.

---

## Work Experience

**Junior Web Developer** | Webkrida, Mumbai (May 2023 – Present)

1. Designed and developed responsive web pages and email templates using HTML, CSS, and Bootstrap, ensuring cross-browser compatibility and optimal mobile responsiveness.
  2. Maintained and enhanced existing web applications based on user feedback and performance analytics, contributing to improved user engagement and site functionality.
  3. Collaborated effectively with design and backend teams to implement clean, scalable, and modular front-end logic.
  4. Utilized advanced JavaScript methods (e.g., map(), filter(), reduce()) for efficient data processing and dynamic content rendering.
  5. I actively participated in debugging sessions and contributed to the performance optimization of web applications, resolving issues efficiently.
-
